

SITE INDEX

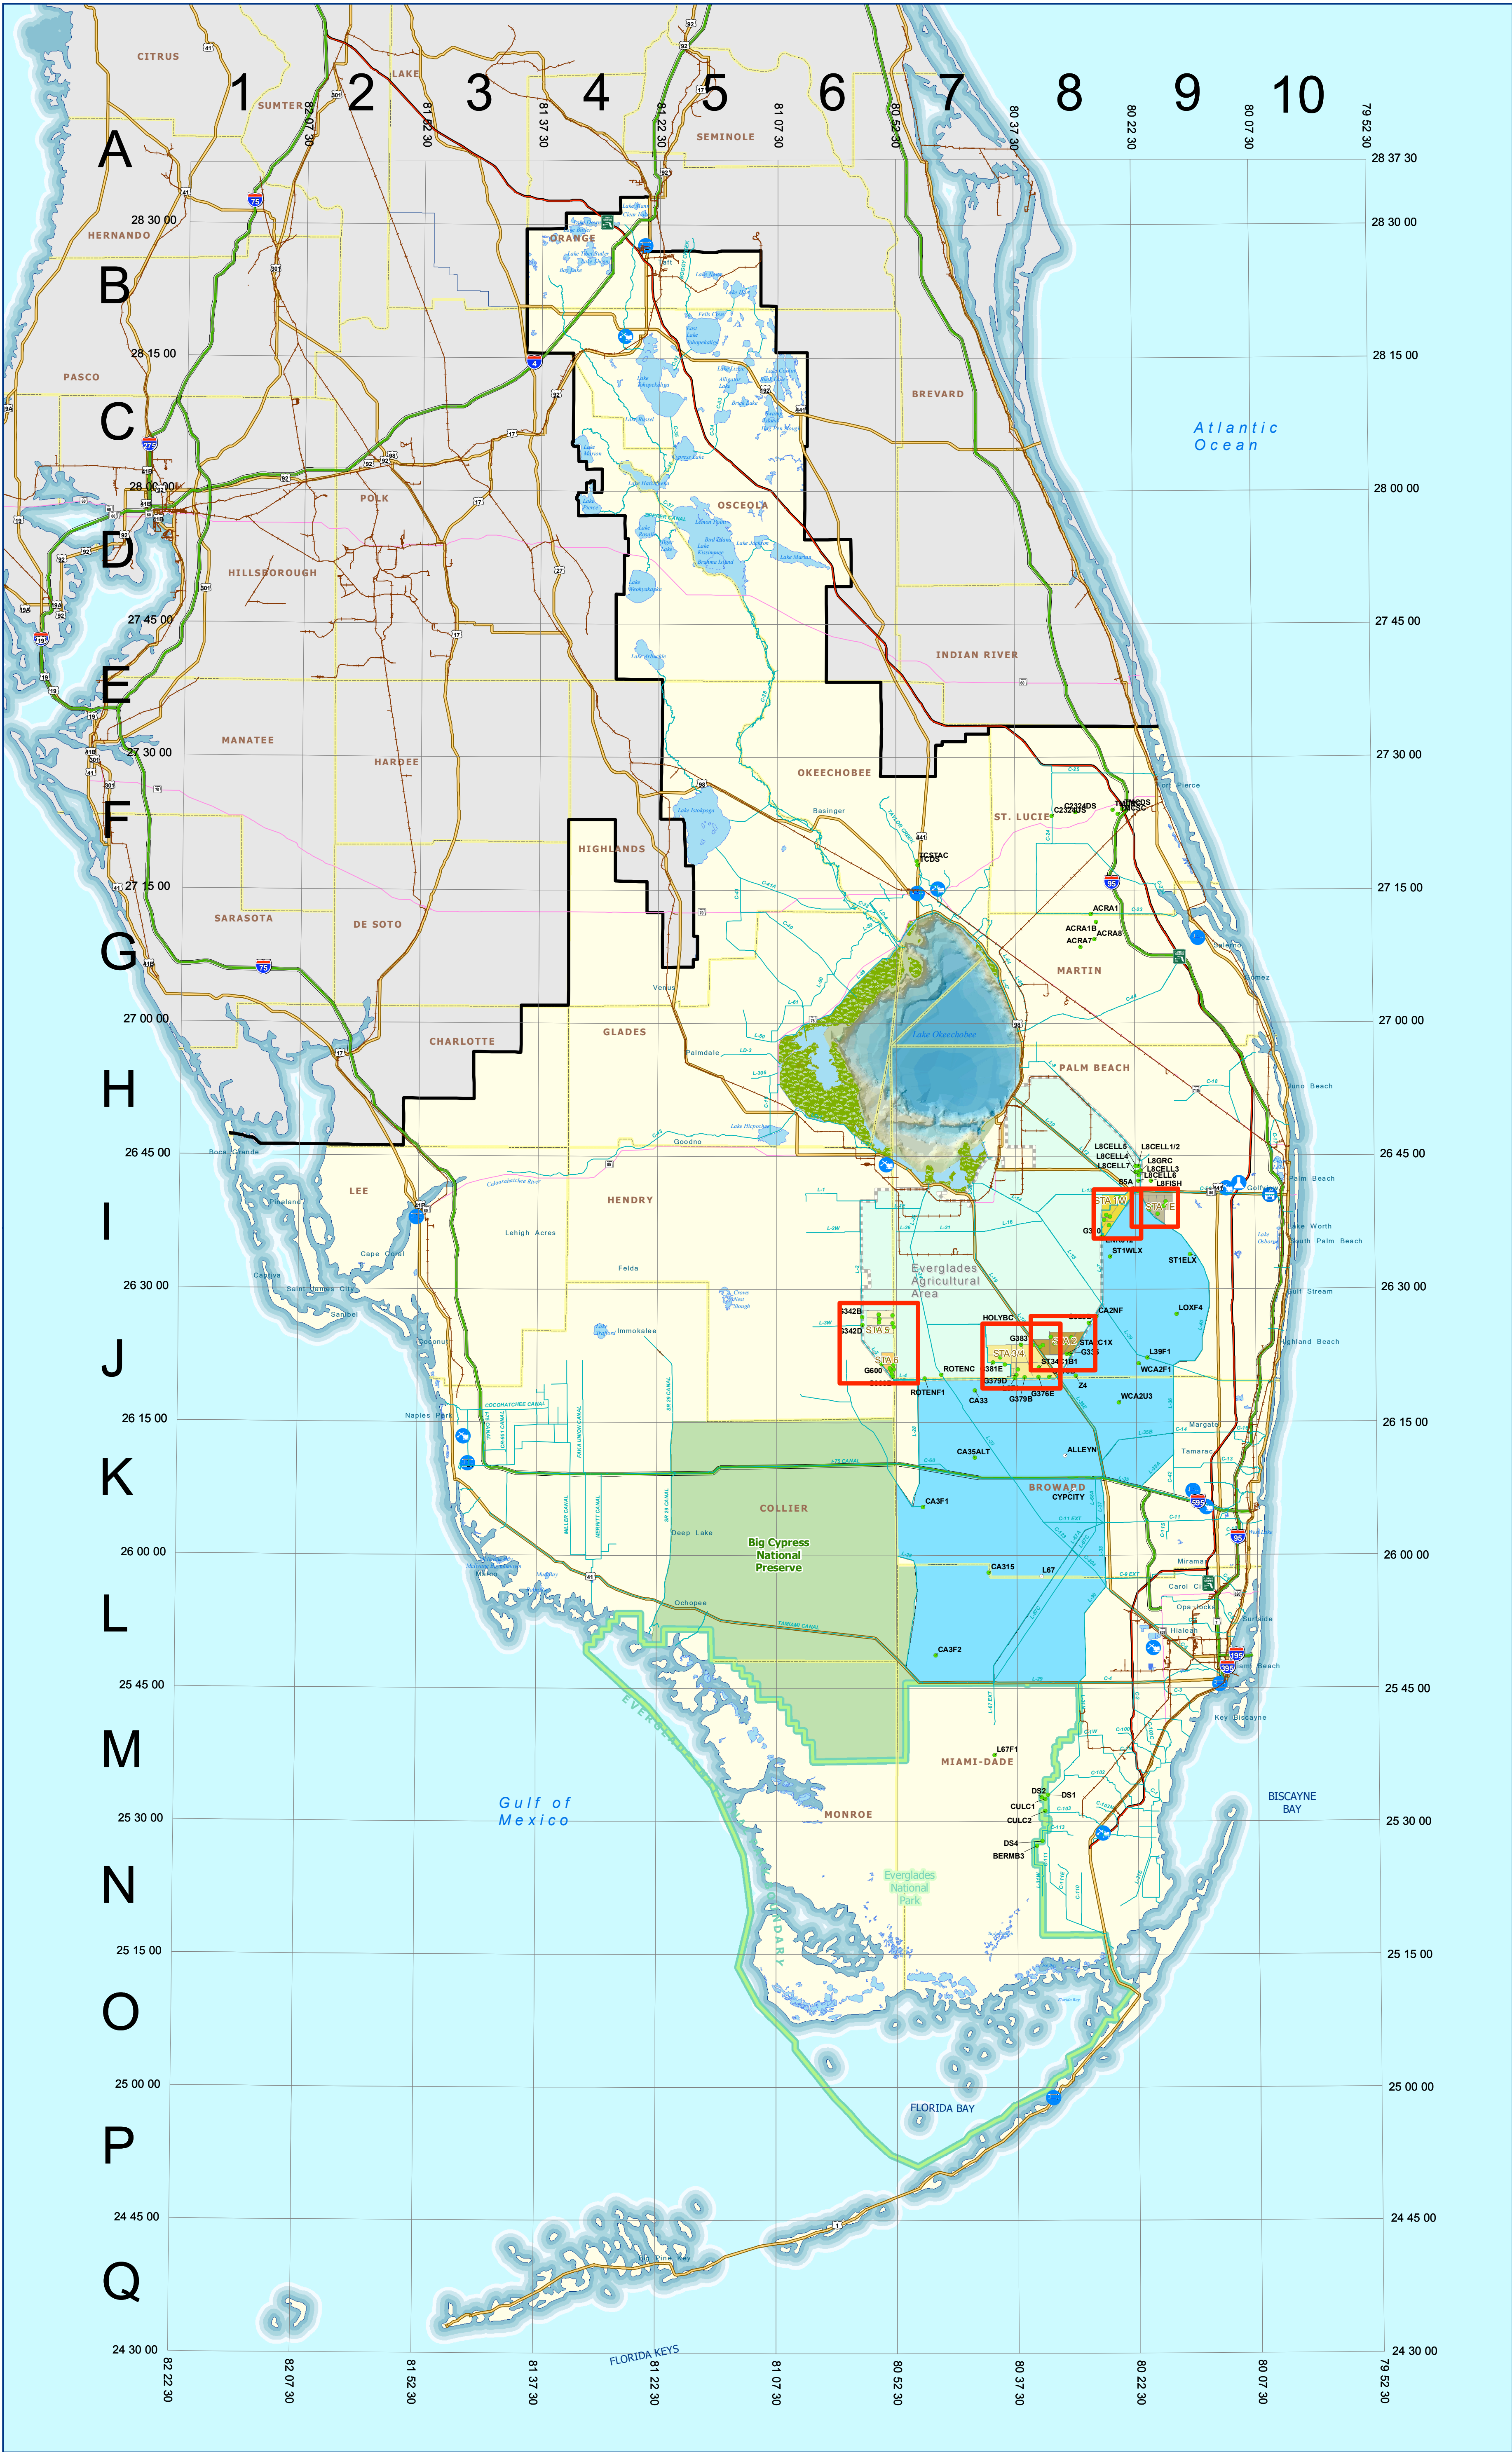

Legend

Facilities

- Field Station
- Headquarters
- Water Quality Laboratory
- Service Centers

Other Areas of Interest

- Railroad
- SFWMDC Canals
- Interstate Hwy
- Turnpike
- US Roads
- State Roads
- County Boundary
- Everglades Agricultural Areas (EAA)
- Water Conservation Areas (WCA)
- Everglades National Park (ENP)
- Big Cypress National Preserve (BCNP)

Site / Station Definitions

A specific coordinate that indicates where data (observations, sampling or monitoring) is collected. Data are usually assigned to Stations by various classifications such as Stage, Flow, Weather, and Water Quality. A coordinate may have more than one Station associated to it. The name given to a station has traditionally been similar to, or an exact duplicate of, the corresponding site name (see "Site" below).

A representative point used to designate one or more Stations that are associated by proximity or project. Site level representation is to provide clarity for small scale mapping in lieu of displaying a high density of associated stations. The Site location is often based on the position of a recording device, such as a remote terminal unit (RTU), or can be derived from a common sense location between the associated stations. A Site should not be viewed as an area feature with specific boundaries but simply as a representative location of activity.

SUMMARY: BOTH A "STATION" AND "SITE" REPRESENT A LOCATION FOR INFORMATION, WITH STATION BEING SPECIFIC TO THE COLLECTION OF DATA AND SITE BEING A GENERAL APPROXIMATION OF ASSOCIATED STATIONS.

DISCLAIMER:  
Any information, including but not limited to software and data, received from the South Florida Water Management District ("District") is provided as is, without warranty, and the user assumes all responsibility for its use. The District does not warrant, guarantee, or make any representation, regarding the use, or the results of the use, of the information provided to you by the District in terms of correctness, accuracy, reliability, timeliness or otherwise.
